I went to Smyser School with Tony and he went to Lane Tech. He lived on Menard Ave. across the alley from me. We played a lot of sports together. He was friendly and mature and refrained from getting angry and getting into scraps. He was understanding about me being disadvantaged and he stuck up for me. I think of him as a brother. I always hoped to see him again. I see he had a rich and meaningful life and I'm glad for him and his family. His cousins were Chester and Marilyn. I clearly recognize his smile and friendly face. That's my friend Tony.

Tony always put a smile on my face at work. Any time I had a project at home he was the first person I would ask.....And he always was able to help me complete my project. I still remember the first time I asked him about fixing a curtain rod in a block wall. He actually brought me in some cement in a old peanut container and told me how to mix it and what to do. That was in 2010 and I still have the container because I just don't want to throw it away since he gave it to me. Tony you will truly be missed. Not just as a co worker but as a friend.
